

QUALITY POLICY

The company Skin Tech Pharma Group designs, develops, manufactures, and markets cosmetic products and/or medical devices.

The company establishes its **Quality Policy** oriented to guarantee a constant and efficient internal organization, an effective operation, and a dynamic daily adaptation, based on continuous improvement.

This ensures the correct manufacture of the products, their placing on the market and their subsequent marketing.

This guarantees compliance with customer requirements, standards and applicable legal requirements and product conformity throughout their life cycle.

The main basis of the **Quality Policy** is:

- To use the most appropriate means to know the needs, expectations and realization of the activity of the company, its main purpose being the design and development, manufacture, placing on the market and marketing of own-brand cosmetics and/or medical devices, intended for the national and international market of aesthetic medicine, which comply with the necessary standards worldwide, as well as, as far as possible, to manufacture cosmetic products and/or medical devices for third parties.
- Commit to the compliance with all the requirements of application to the activity of the company and establish procedures that ensure the implementation and maintenance of an adequate and effective Quality Management System, which ensures the conformity of the products throughout their life cycle.
- Develop a reference framework to establish, review and meet quality objectives, which the company deems appropriate to ensure the continued effectiveness of the Quality Management System adopted and implemented by the company.
- Inform, train and sensitize workers, collaborators, suppliers, subcontractors and in general, anyone who can act on behalf of the company about its policy, to integrate them into it.
- Ensure the quality and safety of manufactured cosmetic products and/or medical devices, their placing on the market, as well as the continuous improvement of associated services, based on documented methods and procedures and applicable reference normative.
- Make periodic review of this Policy to adapt it continually as necessary and ensure its constant functional effectiveness along with compliance with the rules, safety requirements and performance of cosmetics and/or medical devices.

The Management of the company is fully committed to this **Quality Policy**, which is used as a reference framework for the definition of Quality Objectives and is available to all employees and individuals who can act on behalf of the company and to the general public for their knowledge.

Márcio F. Antunes Rodrigues.
